

BEST PRACTICES OF THE COLLEGE

BEST PRACTICE I

Motivating Young Women Entrepreneur

OBJECTIVE: The objective of the Young Women Entrepreneur Development centre is to impart the entrepreneurial skills among the young women who have a desire to become entrepreneurs. Hailing from rural background the girls find it very difficult to go for higher education. So they may flourish as entrepreneurs at any stage of their life and extend their support in nation building.

PRACTICES: Entrepreneurship is a skill that flourish in the young minds by the environmental factors. All the II UG students are provided a platform to emerge as a entrepreneur by giving training on various Skill Enhancement courses by the YWED centre of the college. The students can opt any of the course they wish and learn. The centre provides basic knowledge, hands on training, imparts production and marketing techniques to the students. The list of the courses and the no of students enrolled are given below

Basics of Bakery : 39, Cuisines of India: 40, Food Preservation: 47, Blouse Designing: 63, Crochet: 62, Saree Embellishment: 53, Surface Embellishment: 62, Jewellery Making: 60, Painting: 60, Doll Making: 61, Herbal Cosmetics: 60, Jute Bag Making: 43, Digital Photo Print: 48, E-services: 47

DIFFICULTIES: Students find it difficult to undergo training along with their academic activities. In order to rectify their difficulty special training was given during their summer vacation.

OUTCOME: Around 745 students were benefitted by the hands-on training given during the summer vacation. The students had participated with great interest. Students marketed the products prepared by them on the day of Parent Teachers Meeting and Budding Entrepreneur contest. Profit of Rs. 6047 was generated in Budding entrepreneur contest

BEST PRACTICE II

Paper less office - Office automation

OBJECTIVE: The main objective of the paperless office is to eliminate or reduce the usage of paper to make the campus eco friendly. Room's allocation in the form of storage units for archiving paper can be eliminated. Information can be passed rapidly due to digitalization.

PRACTICE: Intra net is used to pass all information to various Departments. Public Address System aids to give common instruction to the entire college. Online exams are also conducted for subjects like Career guidance, Computer Literacy, Environmental Studies and Career Mathematics to minimize the usage of paper. Stock registers and other office related works are

computerized. Mark entry and students attendance are entered in the system for the easy access of the students and staff.

DIFFICULTIES: Students may miss the information if they are not attentive during announcements.

OUTCOME: Campus is made eco-friendly by minimizing the usage of papers. End Semester Examination Results are published online. Digitalization helps students and people in the office to accustom to the new scenario.
