

Institutional Distinctiveness: ‘Emerging as a Successful Women’

Rural women are offered quality education to emerge as an adept personality in par with men. The curriculum moulds the students right from the entry level and enhance the self-confidence by imparting technical skills and entrepreneurial skills. Outcome based education is implemented and practised. Apart from regular curriculum Certificate, Diploma and Advanced Diploma courses are offered to the students by arranging respective experts in the field. Skill Enhancement courses offered will improve the ability to earn income. Value added courses support in equipping students to make life determining decisions. Training programmes like mask preparation, home gardening, preparation of immunity boosters will promote students to become outstanding entrepreneurs. Moral and ethical values are imparted by organizing awareness and counselling programmes. Sensitization programmes like importance of breast feeding, women legal rights etc are organized continuously to promote lifelong health benefits. Involvement in the gardening inside and outside the campus inculcate eco-consciousness and pave way for conserving biodiversity. The above skills, values and ethics imparted in the institution strengthen their ability to choose the right path in their career.
