

### **Institutional Distinctiveness: Emerging as a Successful Women**

Rural women are offered quality education to emerge as successful person in par with men. The curriculum moulds the student's right from the entry level and enhances the self-confidence by imparting technical skills and entrepreneurial skills. Skill development courses offered will improve the ability to earn income. Value added courses support in equipping students to make life determining decisions. Training programmes like mask preparation, home gardening, and preparation of immunity boosters will promote students to become outstanding entrepreneurs. Moral and ethical values are imparted by organizing awareness and counselling programmes. Sensitization programmes like importance of breast feeding, women legal rights etc are organized continuously to promote lifelong health benefits. Involvements in the gardening inside and outside the campus inculcate eco-consciousness and pave way for conserving biodiversity. The above skills, values and ethics imparted in the institution strengthen their ability to choose the right path in their career.
